The background of the slide is a blue-tinted photograph of the main building of the Swiss Federal Institute of Technology (ETH) in Zurich. The building is a grand, classical-style structure with a large, prominent dome on the right side. The dome is topped with a smaller, ornate cupola. The building's facade features numerous arched windows and classical columns. In the foreground, there is a paved plaza with some greenery and a few people walking. The overall scene is captured from a slightly elevated perspective, showing the building's scale and architectural details.

**Einführungsvorlesung**

# **Prof. Dr. Patrick Meraldi**
