Evaluation of the damage caused by the spotted-wing fly (*Drosophila suzukii*) on plums (Harvest 2016)

**Introduction**

Dear plum growers,

In 2015, Agroscope in collaboration with the cantonal services sent a survey to stone fruit growers concerning the spotted-wing fly. The survey provided important insights for research, extension services and agricultural practices. The survey is now repeated for the harvest 2016. Its objectives are to evaluate the losses caused by spotted-wing fly and the different measures taken in practice. If your plums are not affected by the spotted-wing fly, please note that your participation in this survey is of great importance to have representative and conclusive results.

Below you will find questions about the following areas:

- Varieties of plums and surfaces
- Assessment of damage
- Measures taken against the insect
- Operational information
- Operations Manager Information

The survey takes about 25 minutes.

Naturally, your information will be treated confidentially and all data will be anonymous.

To thank you for your participation, you will receive, if you wish, an individual evaluation of the results. In addition, we invite you to participate in the draw of 4 SBB vouchers worth CHF 50 each.

We thank you in advance for your cooperation and we invite you to contact us for any additional information!

Esther Bravin (Agroscope), Ladina Knapp (ETH Zürich)

If you have any questions, please contact:

Ladina Knapp- ETH Zürich

knappl@ethz.ch

***

The survey ends on 19.03.2017.
Q0a. Would you like to receive the results of the survey? We’ll send you an individual evaluation. If you’re interested in this, please submit your E-Mail address below*1.

☐ Yes
☐ No

Q0b. Would you like to participate in the lottery of 4 SBB vouchers valued at CHF 50 each? If yes, please submit your E-Mail address below*.

☐ Yes
☐ No

Q0c. If yes, please let us know your E-Mail address:.................................................

---

1 *Mandatory questions
Plum varieties and stock

Q1. Which plum varieties do you have on your farm? Please only submit the varieties with a cultivated area equal or bigger than 100 square meters (approx. 1000 square feet/0.4 acres) or more than 10 trees (the latter only in the case of standard trees).*

☐ Cacaks Fruchtbare
☐ Cacaks Schöne
☐ Dabrovice
☐ Elena
☐ Fellenberg
☐ Felsina
☐ Frühe Fellenberg
☐ Jojo
☐ Hanita
☐ Hanka
☐ Katinka
☐ Tegera
☐ Tophit
☐ Other:......................................

Q2a. Please indicate the tree form in your plum orchard:*  

<table>
<thead>
<tr>
<th>Varieties</th>
<th>Low Stem</th>
<th>High stem</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Q2b. Please indicate the area of your plum orchard per plum variety (low stem)*:  
Please only mention areas that are bigger or equal to 1 Are

<table>
<thead>
<tr>
<th>Varieties</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Q2c. Please indicate the number of trees per plum variety (high stem):*  
Please only mention areas that contain more than 10 high stem trees

<table>
<thead>
<tr>
<th>Varieties</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Estimation of infestation

Q3a. What was the infested percentage per variety at the harvest? Did you abort the harvest?

<table>
<thead>
<tr>
<th>Varieties</th>
<th>0%</th>
<th>1 to 19%</th>
<th>20 to 39%</th>
<th>40 to 59%</th>
<th>60 to 79%</th>
<th>≥ 80%</th>
<th>Abortion of harvest</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

Q3b. From when did you abort the harvest? How large was the percentage of infestation?

(Only the varieties where “Abortion of harvest” was clicked in Q3a appear)

<table>
<thead>
<tr>
<th>Varieties</th>
<th>% infestation</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Q4. How did the infestation by the spotted-wing drosophila manifest?

- ☐ Attested egg deposition (oviposition)
- ☐ Attested larvae/pupae
- ☐ Puncture holes
- ☐ Dripping fruits
- ☐ Acetic acid smell
- ☐ I don’t know
- ☐ I did not notice
- ☐ No infestation
- ☐ Other: ……………………

Q5a. Did you sort the plums after the harvest normally?

<table>
<thead>
<tr>
<th>Varieties</th>
<th>Normal sorting of harvest</th>
<th>Harvest sorted due to the spotted-wing drosophila</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

Q5b. How much more time (in percent) did you need to sort the plums due to the spotted-wing drosophila? (This question only appears if in Q5a the option “Harvest sorted due to the spotted-wing drosophila was chosen)
Q6. Was the plum quality upon delivery in the year 2016 subject to complaints due to infestation with spotted-wing drosophila?

<table>
<thead>
<tr>
<th>Varieties</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Measures against infestation

Q7. Which strategies against the spotted-wing drosophila did you choose for each plum variety? * (Multiple answers possible)

<table>
<thead>
<tr>
<th>Varieties</th>
<th>Hygiene measures at harvest</th>
<th>Control for infestation</th>
<th>Installation of nets (weather- &amp; insect nets)</th>
<th>Mass collection in traps</th>
<th>Insecticides</th>
<th>Early harvest</th>
<th>Other</th>
<th>None</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Q7other. Which other measures did you use per variety? *(This question only appears if „other“ option is ticked in Q7)

Q8. How high do you estimate the additional costs (in percent) per kilogram yield that have arisen from to the measures against the spotted-wing drosophila?

○ 0% ○ 1-19% ○ 20-39% ○ 40-59% ○ 60-79% ○ ≥ 80%

Q9. Which hygiene measurements did you take?* *(This question only appears if „hygiene measures“ option is ticked in Q7)

☐ Keeping the herbaceous layer short/low
☐ Early harvest
☐ Clean harvest per variety (no residual fruits)
☐ Harvest residue removed from the orchard
☐ Harvest residue mulched
☐ Post-harvest treatment

Q10. Which post-harvest treatment did you use?* *(This question only appears if post-harvest treatment option is ticked in Q7)

Q11. How did you check for infestation?* (Multiple answers possible) *(This question only appears if control for infestation is ticked in Q7)

☐ Visual control
☐ Salt test
☐ Soap/warm-water control
☐ Controlling of infestation via cantonal services
☐ Traps
☐ Other: ....................................

Q12. What is the concept of weather and insect net protection for your installation? (This question only appears if nets measures is ticked in Q7)

Varieties | Hail protection | Bird protection | Lateral insect nets | Netting of tree crown | Netting at the tractor entrance
--- | --- | --- | --- | --- | ---
☐ | ☐ | ☐ | ☐ | ☐ | ☐
☐ | ☐ | ☐ | ☐ | ☐ | ☐

Q13. What is the mesh size of your nets? (Multiple answers possible) (This question only appears if nets measure is ticked in Q7)

☐ 0.4 to 0.8 mm (incl. 0.8 x 0.8 mm)
☐ 0.8 to 1.3 mm (incl. 1.3 x 1.3 mm)
☐ 1.3 to 1.7 mm (incl. 1.7 x 1.7 mm)
☐ Other: .............

Q14. Use of insecticides: Which substances did you use against the spotted-wing drosophila and how often per year? Please indicate the number of treatments in the field on the right hand side. *(Multiple answers possible)

This question only appears if Insecticides was ticked in q7.

<table>
<thead>
<tr>
<th>Insecticides</th>
<th>Number of treatments</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Thiacloprid (e.g. Alanto*)</td>
<td>☐</td>
</tr>
<tr>
<td>☐ Spinosad (e.g. Audienz*)</td>
<td>☐</td>
</tr>
<tr>
<td>☐ Acetamiprid (e.g. Gazelle SG*)</td>
<td>☐</td>
</tr>
<tr>
<td>☐ Pyrethrine (e.g. Parexan N* or Pyrethrum*)</td>
<td>☐</td>
</tr>
<tr>
<td>☐ Other: .........................</td>
<td>☐</td>
</tr>
</tbody>
</table>

*or other commercial products with a similar active substance

Q14b. Was Thiacloprid used against the plum tortrix? (Question only appears if in question 14 Thiacloprid ticked)

☐ Yes
☐ No

Q15. How satisfied are you with your chosen strategies per variety? (1=very unsatisfied, 5=very satisfied)

<table>
<thead>
<tr>
<th>Varieties</th>
<th>1 (very unsatisfied)</th>
<th>2</th>
<th>3</th>
<th>4</th>
<th>5 (very satisfied)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>
Q16. If you weren’t satisfied, what would you do differently in the future? (Question only appears if values in question 15 are 3, 2 or 1)

Q17. How will you minimize the infestation with spotted-wing drosophila in the future? (Multiple answers possible)

☐ Clearing of susceptible varieties
☐ Insecticides
☐ Lateral nets
☐ Full netting of trees
☐ Traps
☐ Kaolin
☐ Slaked lime
☐ Increased hygiene measurements
☐ Earlier harvesting
☐ Post-harvest treatments
☐ No measures necessary
☐ Other: ..............................................

Q18. Where do you get your expertise about the spotted-wing drosophila? (Multiple answers possible)

☐ Leaflets and information from Agroscope
☐ Leaflets and information from the cantonal specialist units
☐ Breitenhof conferences
☐ Cantonal orcharding meetings
☐ Specialist articles/journals
☐ Plant protection news for fruit and vine cultivation
☐ AGRIDEA
☐ Internet
☐ Other producers
☐ Private sector (buyers, suppliers)
☐ Consulting from plant protection firms
☐ Other: ..............................................

Q19a. Are there any of the following elements in a 100m radius around your installations?

☐ Edge of the forest
☐ Hedges
☐ Waters
☐ Cultivated standard fruit trees
☐ Uncultivated standard fruit trees
☐ Compost heap
☐ Fruit- or berry production
☐ House garden
☐ Building
Q19b. How do the elements from above influence the infestation with spotted-wing drosophila in your opinion? *(In this question only the elements ticked in Q19 will appear)*

<table>
<thead>
<tr>
<th>Elements</th>
<th>No influence</th>
<th>More infestation</th>
<th>Less infestation</th>
<th>I don’t know</th>
</tr>
</thead>
<tbody>
<tr>
<td>Edge of the forest</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>Hedges</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>

</tbody>
</table>

Q20. Do you have special findings regarding the spotted-wing drosophila?
Information about the farm

Q21. To link your infestation with the weather data from your region, please fill in your post code below*: ............

Q22. What is the focus of your farm? (You can only chose one focus of production.)

☐ Plum production
☐ Orcharding and viticulture
☐ Stone fruit production (cherries/plums/apricots)
☐ Pome production (apples/pears)
☐ Pome and stone fruit production
☐ Mixed Farm: fruit growing and livestock farming
☐ Other:.....................

Q22b. Please specify: (Question only appears if in Q22 it was ticked pome and stone fruit production)

☐ Stone fruit production (cherries/plums/apricots)
☐ Pome production (apples/pears)

Q23. According to which production form do you manage your farm?

☐ ÖLN/Suisse Garantie
☐ Organic farming
☐ Conventional
☐ Others

Q24. How many units of standard manpower does your farm have?

Q25. What’s your total farmland in Aren?

Q26. Which share of your farmland are you leasing?

☐ 0-25%  ☐ 26-50%  ☐ 51-75%  ☐ 76-100%

Q27. How are you marketing your plums? Please provide us the percentage for each marketing option chosen.

☐ Sales to commerce, collection point: .....%  ☐ Sale directly to major distributors: .....%
☐ Direct marketing: .....%  ☐ Other

Q27other. Please specify which other marketing options you mean.

Q28. Do you have a hail insurance?

☐ Yes  ☐ No
Q28a. Which hail insurance do you have? Please only select one answer.

☐ I have the hail insurance “standard” (Swiss Hail)
☐ I have the hail insurance “enhanced” (Swiss Hail)
☐ I have the hail insurance “Fix” (Swiss Hail)

Q29. Which of the following strategies are you employing on your farm?

☐ Agriculture-related diversification (e.g. agrotourism)
☐ Working off-farm (e.g. consulting, tourism)
☐ Creation of financial reserves (saving for bad times)
☐ Off-farm investments (e.g. other companies, real estate)
☐ Processing and direct marketing
☐ Forestry work
☐ Other strategies:..........................
Information about the farm manager

Q30. How high is your expected yield loss caused by the spotted-wing drosophila?
○ 0% ○ 1-25% ○ 26-50 % ○ 51 - 75 % ○ 76 – 100%

Q31. How much additional cost (in percent) do you expect in the coming year for the different measures you will take against the spotted-wing drosophila?
○ 0% ○ 1-25% ○ 26-50 % ○ 51 - 75 % ○ 76 – 100%

Q32. Which percentage of your earnings are from farming?
○ 0-25% ○ 26-50% ○ 51-75 % ○ 76-100 %

Q33. How much is the production of plums contributing to your earnings (in percent)?
○ 0-25% ○ 26-50% ○ 51-75 % ○ 76-100 %

Q34. Your sex
☐ Female
☐ Male

Q35. In which year are you born?

Q36. Do you have a successor to your farm?
☐ Yes
☐ Rather yes
☐ Rather no
☐ No
☐ No, there’s no farm succession in the next 15 years
☐ No, the farm will be discontinued

Q37. Are you willing to take risks or do you try to mitigate risks in the areas mentioned below? *

*Please indicate on the scale below. The value of 0 stands for “not willing to take a risk at all” and the value 10 for “very willing to take a risk”. With the values in between you can grade your assessment.

<table>
<thead>
<tr>
